

A Powerful Journey Through Nature's Bridge Into The Depth Of Our Spirituality

A workshop by
Sam & Anne Claire
with the Giant Sequoias
of Calaveras Big Trees
in California, USA
October 7 - 12, 2018

Never have we experienced the exceptional depth of quietness when we were meditating in the presence of the Giant Sequoias. This quietness gave us a great sense of strength and well being.

The quiet presence of nature as expressed by the Giant Sequoias helps humanity to bridge into the higher aspects of the spiritual realms.

Whenever we experience this quiet strength of Nature, we may become acutely aware of our surroundings, and the easier it becomes to walk its bridge into the spiritual realm.

In this workshop Sam and Anne Claire will create a bridge of awareness and merger with nature, and the spiritual realms it leads us to. This will be an extraordinary opportunity to gain an even closer relationship with the Creative Force.
